

Meeting 3:

Feedback:

1. Overall, great work/styling so far!
2. The Characters page is great! The cut outs create kind of an immersive experience.
3. Main display font is effective
4. The lin Manuel Miranda page is just meant to be silly.
5. The LMM page should just be a huge cut out of his face. The entire time you scroll down it's just his face. And the header could have heart symbols after his name. No explanation needed. Fans will understand. Normies will figure it out.
6. The images are a little bit blurry for the behind the scenes stuff
7. I will find some hopefully less blurry photos to send. For the behind the scenes artwork.
8. These may work a little better, probably best to keep the size small on the page in general
