Meeting 2:

Feedback:
1. Serves overall purpose quite well!
2. The black mockup brings out the colors more, which are a huge part of what makes the film engaging, so the black mockup is best.
3. Want viewer to focus on one thing at a time, so separate pages may work better than one long scroll
4. Directors notes on home page for more broad info
5. Main characters could be larger with more info and then supporting characters in a grid after.
6. Cast can just be a grid.
7. Songs: embedded mp3 or link to spotify (whichever one is achievable)
8. Be silly with Lin manuel miranda page
